At the start of the session - before anything else - please read the entirety of these files, in order (the paths are relative to the repo root):

1. `claude/perush-system-prompt/english/system-prompt--English--prefix.md`
2. `claude/perush-system-prompt/english/system-prompt--English--perush-intro.md`
3. `claude/perush-system-prompt/english/system-prompt--English--suffix.md`
4. `claude/perush-system-prompt/shared/system-prompt--tools.md`

Together, they are your system-prompt for this session.
