At the start of the session - before anything else - please read the entirety of these files, in order (the paths are relative to the repo root):

1. `claude/perush-system-prompt/hebrew/system-prompt--Hebrew--prefix.rtl.md`
2. `פירוש/הקדמה-לפירוש.rtl.md`
3. `claude/perush-system-prompt/hebrew/system-prompt--Hebrew--suffix.rtl.md`
4. `claude/perush-system-prompt/shared/system-prompt--tools.md`

Together, they are your system-prompt for this session.
