Notes

- **Hebrew:** daat.ac.il was not reached by the search engine. Its Hebrew essays on מבול/גלגמש (e.g. Rapaport's) need a manual search on the site. HUJI syllabi exist for courses on "המבול בספרות האכדית", which suggests reading lists (shnaton.huji.ac.il).
- **SOAS Research Online (eprints.soas.ac.uk) no longer resolves.** George and al-Rawi, "Tablets from the Sippar Library VI: Atra-ḫasīs," *Iraq* 58 (1996) 147–190 was OA there. Look for it in the new SOAS repository (soas-repository.worktribe.com), which blocks scripted access.
- No shadow-library copies were used. The godawa.com uploads (Wenham, Fisher, Frymer-Kensky) are third-party, so they are noted but not downloaded.
