ORACC epsd2/literary Q000762 — The debate between Winter and Summer (composite = ETCSL 5.3.3)

▼ Contents

Files 1

Line numbering 1

Usefulness 1

- **Editors:** ePSD2 / ORACC (S. Tinney et al.); composites derived from ETCSL and re-lemmatised to ePSD2; exemplars (P-numbers) from CDLI.
- **URL:** https://oracc.museum.upenn.edu/epsd2/literary/Q000762 ; data from https://oracc.museum.upenn.edu/json/epsd2-literary.zip (copy in `../_bulk/`, JSON export 2022-12-07).
- **Retrieved:** 2026-10-21 (extracted from the local zip).
- **Licence:** CC0 (stated inside the JSON). `Q000762.cdl.json` (3 MB) is **git-ignored** (`../../.gitignore` §4, large raw ORACC files) and restored by `tools/sources_sync.py` from the zip (built-in rule); the Markdown is committed.

Files

- `Q000762.cdl.json` — raw ORACC CDL JSON (unchanged, from the zip).
- `Q000762--lemmatised-morph.md` — 295 lines; per line the transliteration and a `lem:` line: ePSD2 citation form[guide word]POS **plus** `{morph;base}` (the ePSD2 morphological analysis, which decides ḫamṭu/marû and the prefix chain). Converted with `../../../tools/cdl2md.py … --morph`.

Line numbering

ETCSL composite numbering (same labels as `../../ETCSL/5.3.3--Debate-Summer-and-Winter/`).

Usefulness

Rank 2 lexical/morphological aid for `סיפורי-הבריאה-המסופוטמיים/7-הקיץ-והחורף/`. The text is ETCSL's; the gain is the lemmatisation and the morph field.
