Source: https://seal.huji.ac.il/node/7520 (SEAL – Sources of Early Akkadian Literature, ed. M. P. Streck & N. Wasserman). Clean extraction of `node-7520.html` by `tools/seal2md.py`. Conventions: `_..._` = italic on the site (Akkadian words); `{...}` = superscript (determinatives); a line with an empty label continues the previous one (e.g. the Akkadian of a bilingual line); `lemmas:` = SEAL's lemmatization (form = lemma "meaning").
