The `.md` files are clean text extractions of the catalogue descriptions (popular-level; no transliteration).

## Assessment

Descriptive only. The actual texts: MS 5108 is fully edited in Wasserman 2020 / SEAL no. 1518; MS 2950 only in George 2009 (CUSAS 10, 3) — a gap for free sources. CDLI has photo/line art for both (P254176, P252009 in `../CDLI/`).
