Per line: **N** = normalized Akkadian reconstruction (`|` metrical foot, `||` caesura); **T** = eBL English translation; **L** = lemmas with eBL dictionary glosses; then notes, parallel lines, and the manuscripts' transliterations (ATF). Bibliography keys like [RN117: 889] are resolved in `bibliography.md` (RN117 = George 2003).

- **Note:** On the name "(W)ê" of the god leader of the rebellion, previously interpreted by most scholars as Wê-ila or Aw-ila, see the commentary on this line in [marquezrowe2016middle: 62] (following [krebernik2002geschlachtet: 290]). [RN59aa: 173-74] read *UN* at the beginning. The epithet *ša išû ilu ṭēma* displays the same word order as in OB II 103, which shows that the two texts were closely related.
